

Leadership Coaching on Prophetic Culture

A 6-session interactive cohort-based training intensive on how to grow a healthy prophetic culture in your church

How can we embrace prophetic ministry in our churches in a safe, mature and biblical way?

How do we demystify prophetic gifts and make them accessible for everyone?

What's the best way to encourage and release prophetic people?

I'm Cath Livesey, founder of Accessible Prophecy, and I'll be leading this **specialised training** on how to grow and develop a healthy and effective prophetic culture in your church.

Prophecy is a vital gift that God has given His people, and I believe that it's possible for **every church** to develop a culture where this gift and ministry bear much fruit and have a lasting kingdom impact. As I work with churches around the world I know there is a need for a holistic and biblically-based prophetic ministry that both **resources discipleship** and **empowers mission**.

But how do we get there? How do we avoid the hazards and controversy? In this training we'll be looking at the key building blocks and principles of growing a prophetic culture. I'll be sharing with you many of the lessons I've learnt as I've led the prophetic ministry at St. Thomas' church in Sheffield over the last 10 years, and as I've trained leaders from many different contexts.

Training for effective leadership in the prophetic

Here's how it works:

■ **Fortnightly cohort gatherings**

Cohorts of 4-5 people meet every 2 weeks for 75 minutes via video conference calls for in-depth teaching and training on growing a prophetic culture.

■ **Training aimed at leaders**

This training is for church leaders and members of church leadership teams. The aim is to equip you with key principles and example of best practise that can be implemented in your specific context.

■ **Price**

£190 for the 6 sessions

■ **Interested?**

We'll be starting our first cohort training in March. Please email prophecy@3dmeurope.com to register. Once we get a final registration list, we'll send out a poll to find a time that works for each cohort group.
